

Knole Academy Covid 19 update 20 March 2020 3pm

Dear Parents

The Government has announced some details on the process for examinations. As I stated in my letter this morning it will be based on predicted grades. As I suspected, there will also be a winter examination window for students who are not happy with the grades they have been awarded via the predictive measure. Therefore, it is imperative that students continue to study to provide insurance as the methodology for awarding grades via predictions is untested.

The Government have asked Universities to be flexible in the way that it looks at offers for Year 13 students.

We shall delay the distribution of predicted grades that were due to be sent at Easter for all year groups, I hope parents will understand that these predictions now take on greater importance and we need to be sure that they are accurate and can be justified to the awarding examination bodies. As soon as they are finalised we shall send them to parents. Please note however that the final grade will be determined by the awarding body after national moderation.

The latest guidance can be found at <https://www.gov.uk/government/news/further-details-on-exams-and-grades-announced>

Best wishes

David Collins
