Dear Parent/Carer,

Re: National Tutoring Programme

We have been offered funding for additional tutoring in English, maths or science to support students in their learning post Covid 19.

We believe this would be particularly beneficial to our year 9 students, to fill in any gaps in their learning due to the pandemic, and to ready them for their GCSE studies next year.

The tutoring will be in groups of 3 students for 15 sessions and will be undertaken online at home.

If you would like your son/daughter to take up this opportunity please open the link below to complete the survey and register your interest.
