

## **Photography Assignment 3 – 20.8.21**

### **Photographs:**

- Take lots (hundreds) of photos over the summer holidays of anything and everything.
- Start to explore what you are interested in.
- Bring these with you in a digital format (on a USB or SD card) – even the ones you think are bad.
- Consider the following: texture, movement, focus, line, pattern, architecture/structure, repetition, composition, and lighting.

You will present your favourite 3 photos the first lesson back.
