

Textiles Assignment 1 – 26.6.21

Contextual studies:

Watch at least one documentary and research at least one designer using the following points to help you.

Make notes about what you have found out.

- If you have designers that you like, visit their websites and look through their archived collections, galleries, videos. Read about them, find out their inspirations and points of view.
- Visit textile artist websites and read about their collections of work to find out where they find inspiration and begin to understand how this translates into a piece of work. You can find most artists websites through Pinterest, but here are some that I think are worth looking at: Ana Teresa Barboza, Paddy Hartley, Zoe Buckman and Lesley Richmond.
- There are lots of documentaries on youtube/Netflix etc. on designers and fashion. Some of my favourites are on Netflix – ‘Jeremy Scott: The People’s Designer’ and ‘McQueen.’
- https://www.youtube.com/watch?v=h_UIHFijDU4 – Nick Verreos has lots of step-by-step guides to various draping methods on his youtube channel, if you have the materials you could try following one of his tutorials, if not just watching a few will give you a greater understanding of draping and pattern cutting.
- <https://www.youtube.com/watch?v=bjYv2M2LCFE> – Rediscovering Art through Textiles
